

Dear beloved,

With the joy that still remains, here we are sharing once again what the Lord has been doing in our lives, here in Rosarito. We are truly happy and we rejoice on his name, since we have confirmed this is the place we must be in.

Irene and Juan Alberto, have been learning and seeking out to god she doesnt do other than expressing the joy that could be in a new heart, i recall 2 weeks ago we were in our bible study and suddenly she began to pray as she could, without any understandig words but she was lifting her voice to God, offering what was left of her, we prayed along and heart touched,we also cried its was as if she was hungered.

We encourage her husband Juan alberto to keep watching on her and we are honored to see how her heart attack, has brought them together, he takes care of her everyday, and so he's unable to work. Irene's family wish they could take her back to chihuahua, mex. but she says that till death drifts them apart.

Another great news, is that my wife, has her own ministry with the women in her gym group, the lord has guided her to share the gospel and a life with God, Vianney, became very sensitive to her words as she is going through a divorce process, she has been sharing with us and we have seen as God touches her heart when she accepted Christ as her savior.

We do believe there is a perfect time and God is still preparing hearts to came to his feet, we are praying for ANNA, NATTY, CHEPINA,AND FLOR. May GOD give wisdom to provide words of hope, to my wife to share with them.

Our personal life has also been and adventure, I have a new job and this is an answer to our prayers, I am in the home bussiness, and I recently, I met Cristina, who is also a believer, I was amazed as how God would use her, as she is willing to work with us in the churchs plantation. Once again, we cross paths with persons who have become a blessing to us, including you.

In the other hand, Pastor Geoff delivered good news today as he informed, that we will be able to attend, our every year retreat to Queretaro.

The girls and I cannot be more excited and thankful

Motivos de Oración
